## REASONS FOR ALLOWANCE

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: As per claims 1, 12, and 15 the prior art fails to teach the elements of the claim, specifically, providing the method and apparatus of a combined vapor compression system with an evaporative cooling system and outdoor humidity sensor that alternatively drives the vapor compression system when the humidity of the outdoor air is higher than a predetermined value or the evaporative cooling system when the humidity of the outdoor air is lower than a predetermined value.

Although Kinkel et al. (US 5,970,723) teach a vapor compression system with an evaporative cooling system and outdoor humidity sensor, Kinkel et al. explicitly teach continuously operating the vapor compression system and cycling the evaporative cooling system, not alternatively operating the systems based on a predetermined humidity value.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
